LHD Resource List for Education and Training

POSITION/SKILL	TYPE OF TRAINING		LEVEL OF TRAINING			WHERE TO FIND TRAINING	*COST?	
	Online	In-Person	Beginner	Intermediate	Advanced		Yes	No

HOW TO USE THIS TOOL:

This Tool is intended to be used in conjunction with Tools C, D, and E to help with LHD staff education and training. As of the Toolkit production date of Summer 2010, this list is as accurate as possible. This is not meant to be an all-inclusive list, but a start for LHDs in identifying education and training available. On a regular basis, all LHD staff should add courses to this list which meet individual LHD needs. Training is categorized under LHD job functions and an additional blank template is provided above. Trainings listed in red are conducted by or in conjunction with the Indiana State Department of Health. This list can be used as a resource for training new employees and for continuing education of current staff. It is recognized by the Public Health Workforce Development Workgroup that this is a continually changing document and will require upkeep and at least annual review.
